EVALUATING THE IMPACT OF A GI GUIDELINES APP ON HEALTHCARE PROVIDER AWARENESS AND ADHERENCE: INSIGHTS FROM A SURVEY

Giovanni Marchegiani

UEG Week Copenhagen 2023 Poster

October 15, 2023

A survey of 1377 respondents evaluated the United European Gastroenterology GI Guidelines app, finding that 975 app users reported daily use and rated the app as user-friendly with a mean usability score of 76.56 out of 100.

KEY POINTS

- The Quality of Care Taskforce of the United European Gastroenterology developed the GI Guidelines app to provide healthcare providers easy access to updated gastroenterology guidelines across different fields.
- Among app users, 975 out of 1377 respondents reported daily use, with most familiarity in endoscopy, inflammatory bowel disease, and liver content guidelines.
- The app received a mean usability rating of 76.56 and a median of 80 out of 100, perceived as user-friendly and easy to navigate.
- App users provided feedback on content-related and technical improvements, while most non-app users reported still using guidelines in clinical practice.
- The survey collected demographic data and assessed reasons for non-use, aiming to identify gaps to improve clinical practice adherence to guidelines.
