

Metabolic Dysfunction-Associated Steatotic Liver Disease

Laura Haigh

Metabolic Dysfunction-Associated Steatotic Liver Disease

Online Course

Hepatobiliary

July 29, 2022

An online course provides a comprehensive update on all aspects of nonalcoholic fatty liver disease, covering epidemiology, biomarkers, care pathways, lifestyle interventions, and pharmacotherapy.

KEY POINTS

- The course addresses NAFLD, a highly prevalent but largely asymptomatic disease that poses a major challenge to healthcare systems worldwide, with considerable variation in disease severity and outcome.
- Content covers epidemiology and natural history of NAFLD, biomarkers, patient identification and care pathways, dietary and lifestyle interventions, and pharmacotherapy.
- The course includes detailed PPT slides and video presentations filmed in May 2022, with an estimated completion time of 120 minutes including final assessment.
- The target audience includes gastroenterologists and hepatologists in training, liver pathologists, endocrinologists, diabetologists, primary care physicians, nurses, allied health professionals, basic scientists in translational biomedicine, and medical students.
