

Acute pancreatitis

Markus M. Lerch

Acute pancreatitis

Online Course

Pancreas

September 1, 2020

This educational course covers the aetiology, classification, diagnosis, and therapeutic regimes for acute pancreatitis, the most frequent pancreatic disease and leading cause of emergency admission among nonmalignant gastrointestinal conditions.

KEY POINTS

- Acute pancreatitis is a rapid-onset, painful pancreatic inflammation with a diverse and unpredictable clinical course that is troublesome to manage
- Although the inflammation usually subsides, complications can develop and some patients progress to chronic pancreatitis
- The course addresses aetiology, classification systems, diagnosis, and therapeutic regimes for acute pancreatitis
- The course is suitable for gastroenterologists in training, physicians and surgeons in other disciplines, nurses, biotechnicians, and advanced-years medical students interested in gastroenterology
