Pancreatic cancer - Part 1

Online Course

Digestive Oncology

Digestive Oncology

November 1, 2023

An educational course on pancreatic cancer covers clinical presentation, diagnosis, treatment approaches, and surveillance for high-risk patients, targeting gastroenterologists and other healthcare professionals.

KEY POINTS

- Pancreatic cancer is a highly aggressive malignancy that is often asymptomatic in early stages, making early detection challenging
- Risk factors include tobacco use and certain genetic mutations, and the disease has a poor prognosis with low overall survival
- The course covers clinical presentations, diagnostic workup, basic therapeutic approaches, and surveillance of high-risk patients
- Target audience includes gastroenterologists, fellows and medical students in training, general practitioners, nurses, dieticians, physicians of other specialities, and basic scientists in gastroenterology
